

TorcUp South Pacific / NAS

NAS carries a full range of IMPACT SOCKETS and Accessories to cater for all of your bolting requirements. Our complete range of impact sockets come with a "Lifetime Warranty" covering faulty materials and workmanship. Give yourself peace of mind; always specify TorcUP Impact Sockets.

The TorcUP line of Industrial Impact Sockets feature freecorner for flats above 5/8" (17mm). All TorcUP Industrial Impact Sockets are made from high strength alloy steel, heat treated for the best combination of strength and impact resistance. With optimum wall thickness, TorcUP sockets have the strength to withstand the necessary torque and the access to reach the most restricted of nuts. The depth of the hex openings are designed to accommodate the nut, for full engagement.
